Antisiphon traps approved by this board may be used on bathtub waste pipes and the vent pipe omitted, but the use of these traps on all other fixtures is prohibited except where their use is necessary or advisable, in which case a special permit from the board of health must be obtained. No vent pipe shall be attached to any porcelain vent horn provided upon water-closets, and the use of rubber connection or connections of like material shall not be used on any sewer-connected pipes."

All applicants, whether for a master's or journeyman's license, shall be examined as to their knowledge of the ordinances of the city and orders and regulations of the board of health regulating such work.
